

2020 ISBA RESOLUTION NO. 5

REVISION OF IDAHO CODE ON EXCISION

WHEREAS, Section 33-308, Idaho Code, allows a neighborhood to petition to excise themselves from one school district to another; and

WHEREAS, a petition must be submitted to each of the involved school district boards of trustees. This petition must include legal descriptions of the area in question, maps of both districts with and without the area in question, and an estimate of the number of children residing in the area. The petition must be signed by 25% of the electors residing in the area in question. The school boards must transmit the petition, with recommendations, to the State Department of Education; and the affected local Boards of Trustees are involved in only an advisory way; and

WHEREAS, the State Board of Education will ultimately decide whether or not to allow an election by only the electors who reside in the area the excision petition covers; and

WHEREAS, the area for excision contributes to the property value that establishes local property taxes for all taxpayers in the school district to which it belongs, including taxes for any voter approved bonded indebtedness, school plant facility levies, or supplemental levies; and

WHEREAS, if the voters in the area seeking excision from one district to another vote to leave their current district, it will automatically increase taxes for all of the remaining district tax payers who were not allowed an opportunity to vote; and

WHEREAS, Idaho law requires a vote of all district patrons in order for a district to increase school property taxes with the exception of excision in Section 33-308, Idaho Code; and

WHEREAS, taxpayers of the district from which an excision is made are disenfranchised and their taxes are increased by a small group of electors. Idaho requires a vote of all electors before allowing a school district to tax property owners; and

WHEREAS, Section 33-308, Idaho Code, requires that submitted excision petitions be considered by the school district(s) no later than ten days after its first regular meeting held subsequent to the receipt of the petition.

NOW, THEREFORE BE IT RESOLVED, that the Idaho School Boards Association work to revise Section 33-308, Idaho Code, to end the unintended consequences of disenfranchising district taxpayers and the unreasonably short timeline for districts to consider petitions. The Idaho School Boards Association shall seek to amend Section 33-308, Idaho Code to allow participation by all district taxpayers in both districts in the excision/annexation process. Allowing all district taxpayers in both districts the

opportunity to vote in an excision/annexation election will protect all taxpayers from having their taxes increased without their permission. The potential excision of real property in the taxpayers' district would reduce property value in the excision district and would automatically cause the remaining district taxpayers' taxes increase. The Idaho School Boards Association shall also seek to increase the allotted time for both districts to respond to a submitted excision petition to allow sufficient time to research the impact of the petition, including changes in USDA programs and federal programs and to get input from district patrons. The current process unfairly penalizes taxpayers in the district impacted by an excision.

STATEMENT OF PURPOSE

Section 33-308, Idaho Code needs to be significantly revised due to the hardship it causes district taxpayers and districts. The current process allows a small group of individuals to increase taxes for another, larger group of taxpayers in an affected district. As a result of the process allowed by Section 33-308, Idaho Code it is extremely difficult for districts to do short or long term financial planning. Additionally, the timeline for district consideration should be changed to allow much more time for both districts' Boards of Trustees to research the impact of an excision petition and seek input from district taxpayers.
